APPENDIX G - Risk Management Policies

APPENDIX G

RISK MANAGEMENT POLICIES AND PROCEDURES

Name of Firm: Fasken Martineau DuMoulin LLP

Please provide a full description of the Firm's most current risk management policies and procedures (including risk management audits) or, if appropriate, an update to your response to Appendix G of last year's renewal application.

(SEE ATTACHED)

Firm Management and Internal Policies and Procedures

1. Firm Background and Governance

The firm was the result of the merger on February 1, 2000 of three regional firms: Fasken Campbell Godfrey in Toronto, Martineau Walker in Montreal and Quebec City and Russell and DuMoulin in Vancouver.

We now have additional offices, either directly or through affiliated entities, in London (United Kingdom), Johannesburg (South Africa), Calgary (Alberta, Canada), Ottawa (Ontario, Canada) and Surrey (British Columbia, Canada). We have a representation office in Beijing.

Governance

Our Firm is managed through a Partnership Board of elected members led by a Board Chairman.

The guidance of the Partnership Board is to the Firm Managing Partner who in turn oversees the Management Team of the Firm constituted of the Regional Managing Partners and Senior Executives.

The Management Team meets weekly by video conference and at least quarterly in person.

2. Lawyer Management (Training and Supervision)

Partners report to their Regional Managing Partner and are formally evaluated each year in connection with the annual compensation review. As part of this process, all partners are subject to peer review. The criteria and expectations are set by the Regional Compensation Committee which is responsible for the review process.

Associates are evaluated annually under a rigorous review process co-ordinated and managed by a Professional Development Committee comprised of partners and supported by full time professional personnel staff who also administers the recruiting and training programs. Associates come under the direct supervision of partners in the delivery of legal service to clients. Each associate has a partner mentor who monitors their work allocation and client service performance, and serves as an advisor and sounding board for addressing professional issues and any concerns that may arise. Regional Associate Committees are elected in the Regions by the associates to represent them collectively in their relationship with the partners, the office and the Firm.

Lawyers are organized into National Practice Groups for the purposes of enhancing cooperation within the Firm, developing new business and ensuring that our service capabilities are well understood within the Firm so that clients can be provided with the best service possible. Large clients also have a Client Team, represented by the various practice groups that might interact with the client, to oversee the delivery of legal services and to enhance the relationship with the client.

Client service is both influenced and observed by the National and Regional Practice Group Leaders and the Team Leaders of Client Teams. Each of these Groups and Teams submit annual written business plans that are reviewed, approved and monitored by the Management Team and include the development of precedents, the implementation of internal professional training and the sponsorship of attendance at external training and professional seminars, as well as, the organized pursuit of business development opportunities. The written firm precedents are available to the lawyers via the office intranet and/or document management system. .

There are various continuing education requirements our lawyers must complete annually in order to maintain their license. These vary somewhat by the Region/country in which they practice.

3. Non-lawyer Practitioners

The Firm is not a Multi-discipline Partnership (MDP) under which non-lawyer professionals are eligible for partnership in a law firm. Non-lawyer professionals are employees or partners of a separate entity, FMD Partners, G.P. Their services are contracted by lawyers in the law partnership, and as such, lawyers provide the required supervision within the rules and regulations of the law societies.

4. New Business

New clients and new matters can only be accepted by partners and associates in accordance with work acceptance policies or practices for each Region/office that include guidelines and considerations relating to conflict search requirements, professional issues (legal and ethical standards, expertise and capacity), financial matters (credit assessments, billing arrangements, fee estimates, retainer deposits) and engagement letters.

New clients and new matters, after conflict search clearance and other intake verifications, including sanctions, require the completion of file opening documentation that populates the Firm's accounting and conflict database.

New client and matter lists, appropriately masking approved confidential clients and matters, are circulated firm-wide weekly.

5. Conflicts

The Firm has appointed a General Counsel in 2020, who oversees conflicts management in accordance with the Firm's Conflict of Interest Protocol. The General Counsel works closely with Regional Conflicts Partners who liaise with lawyers practicing in their respective Regions. The Protocol provides a framework for the review and resolution of conflicts of interest, in accordance with applicable Law Society rules.

The Firm maintains a firm-wide conflicts database which the lawyers access through conflicts searches performed by full time professional conflict search staff in each Region, who have access to the conflicts database. The conflicts database includes information on clients, such as name and address, and conflicts information such as matter name and related parties, responsible

lawyer, as well as terrorist groups and other sanctioned persons identified by government authorities.

When deemed appropriate and necessary by either the General Counsel or one of the Conflicts Partners, 'flags' are added to the conflicts system to forewarn lawyers not to entertain the acceptance of certain engagements without prior discussion.

6. Retainer Letters

The Firm developed a Policy on the use of engagement letters, which is currently under further review. The current Policy warrants the use of proper engagement letters, detailing the scope of the mandate and the Firm's billing rates, in certain situations and particularly for new clients. Templates are available and can be adapted, however Standard Terms of Service must be attached to each engagement letter.

7. Docket and Calendar

Firm-wide computer systems provide for the control of statute dates and other critical deadlines. The patent and trademark practice uses a commercially available web-based due date software system and an external trademark watching service. Date reminder reports are issued and/or available to the responsible lawyer on a regular basis.

8. Custody of Client Trust Funds and Assets

The Firm has in its custody, from time-to-time, client trust funds. Detailed accounting records are maintained of the handling and/or investment of such funds. These records satisfy or exceed the regulations of the governing provincial law societies. The policies and procedures for the custody, handling and recording of such trust funds are reviewed in connection with the annual audit by the Firm's auditors and/or rotating audits by the auditors of the respective law societies.

Trust funds are segregated and deposited with financial institutions. Experienced trust clerks are employed to administer the movement of client trust funds. Such transactions require the written requisition of the applicable partner and trust cheques require dual signatures, neither of whom signed the original requisition.

9. Fee Disputes

The Firm recognizes that fee related disputes with clients may lead to claims and/or suits that may or may not be warranted and, accordingly, has in place a number of management processes to minimize the unwarranted escalation of such disputes.

The Firm's work acceptance practices include guidelines for advising clients on fees when taking on an engagement. Clients are billed monthly, with any exceptions requiring internal approvals. Billing formats are selected from a number of Firm standardized formats. Invoices are generally detailed, including a description of the underlying dockets. Detailed aged reports of unbilled work-in-process and accounts receivable are provided to the responsible lawyers managing the file monthly (and in some cases weekly). Regional Finance Committee, FGA's (Finance Group Administrators) and/or Finance Directors regularly review the status of client files making up

these aged reports with the responsible lawyers. Financial sanctions are available to the Chair of the Finance Committee and management for reinforcement of perceived unsatisfactory management of billings and collections in addition to the annual lawyer performance evaluation and compensation review.

A Collection Department staffed with professional credit and collections administrators, are maintained in each of the Regions. The Collectors work closely with the lawyers to address delinquent accounts and negotiate payment arrangements where necessary. The Collection Department also works with the Finance Committee in each office to handle specific problem matters, which may include situations where the client expressed dissatisfaction with the professional service of the Firm and its lawyers. Any circumstance, identified by the Collection Department in this process, that may lead to an unreported claim, is reported to the partner responsible for claims management as well as the partner responsible for the file.

When deemed necessary and valuable to an individual client relationship, management will conduct a formal or informal professional service audit and assessment.

On occasion, clients submit the fees billed to them to the formal judicial legal fee assessment process available to address fee disputes between lawyers and clients. On occasion, the Firm, after assessing the risks and costs, pursues payment of fees through the courts.

10. Management of Client Claims and Suits

As is set out in the Firm's Policy on complaints and claims, each Region has a partner ("Claims Partners") assigned to manage the reporting and documentation of occurrences that may lead to client claims and suits.

Annually, in connection with the application for renewal of the Firm's Errors and Omissions Insurance, each lawyer and non-lawyer professional is required to report in writing whether they are aware of any facts that may result in a claim, and provide a memorandum on any such circumstances that have not previously been reported and an update of the status of previously reported claims. A database is maintained of these claims and the reporting on the status of such claims.

11. Confidentiality of Client Information and Insider Trading

The Firm has a policy on Confidentiality that covers lawyers, students and staff of the Firm. It sets out specific rules regarding their obligation to maintain the confidentiality of information belonging or relating to the Firm and its clients, both during and after employment or association with the Firm.

The Firm has a policy on Securities Investment and Restricted Trading that covers all personnel, their spouses, family and other household members. It covers the preservation of the confidentiality of information, and detailed descriptions and preclusions relating to insider trading, investing in the securities of clients and others, and the use of discretionary accounts. All personnel must sign and return a copy of this policy acknowledging that they have read and understand the policy, which indicates among its terms that "failure to adhere to this policy may result in immediate termination".

Where appropriate, the Firm provides professional services behind "ethical walls" to preserve client confidentiality.

12. Audit Enquiries

Audit enquiries are dealt with in accordance with a firm-wide Policy that is based on the Canadian Bar Association and the Auditing and Assurance Standards Board's Joint Policy Statement. The Policy sets out an internal procedure for dealing with these enquiries, which includes communicating with lawyers who have docketed time during the prior two years to the client, and provides standard responses to be used.

13. Lawyers as Directors and/or Officers

The Firm has a policy governing lawyers becoming directors or officers. Such elections or appointments can only be accepted under the strict criteria set out under the policy and the approval of the Regional Managing Partner or his/her designee. There is an expectation that underlying Officers and Directors Insurance be present and that, in the case of private companies, shareholder indemnities and/or unanimous shareholder agreements be obtained. The remuneration relating to such appointments may be paid directly to the individual, but is accounted for as revenue to the Firm by adjusting the lawyer's income.

A database is maintained of all such directorships, and is updated at least annually.

14. Lawyers Business Affairs

The Firm's Policy on Securities Investment and Restricted Trading addresses the potential for conflicts of interest between lawyer and client by providing for the prior review and approval by the relevant Managing Partners of (i) material investments by a lawyer and/or his or her household members in the securities of a client where the lawyer personally provides services to the client, and (ii) any investment by a lawyer and/or his or her household members in securities of a client on terms or in a transaction not equally available to others. Lawyers understand that, unless the Firm otherwise expressly consents, they are to devote all of their working time and attention to the Firm's business. Accordingly, if they have personal business to conduct, it is to be done in a fashion that does not imply that it involves the Firm and such personal business is not to be conducted from the Firm's premises or using the Firm's letterhead.

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Fasken (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

Required hardware and software
